

ACTION ALERT

ISSUE: A federal school choice bill has been introduced on Capitol Hill with genuine prospects for success. The Educational Choice for Children Act (ECCA) is based on tax credit scholarship programs that have had success in many states. Under the bill, private or corporate donors would receive a tax credit for contributions made to a scholarship granting organization, which would then use those donated funds to give scholarships to low- and middle-income families for private school tuition. Congressional leadership is supportive of this legislation, and President Trump said he would support the bill.

Attached to this Action Alert, are a [one-page summary of the bill](#) and USCCB's official response to the introduction of the bill, which includes a [letter of support written by Bishop David O'Connell](#), Chair of the Committee on Catholic Education of the United States Catholic Conference of Bishops, and Bishop of the Diocese of Trenton.
