## RCS 8th Grade Graduates!

*By Stella G. and Sarah K.*

As the end of the year gets closer, the RCS eighth graders are getting ready for graduation! Because of this, they have many fun events that take place.

One of the most exciting events was a trip to New York City.

The eighth grade class took a bus to NYC for a full day of fun. When they arrived, they got to enjoy activities like shopping and eating at different restaurants.

Then they went to the theater to see *The Outsiders*. After the show, they took a boat ride on the Hudson River and ate dinner.

When the day ended, they got back on the bus and headed home to Cherry Hill, NJ. This was their last trip together as a class, and it was a special one.

But the fun continued! The eighth graders had several big events leading up to their last days at RCS—like their graduation dance and the graduation ceremony itself.

*(story cont. on page 5)*

## RCS Track Team Shines at Penn Relays

*By Kate B.*

The RCS spring track team had a wonderful 2025 Spring season —especially after their great performance at the Penn Relays, held at Franklin Field in Philadelphia.

The Penn Relays is one of the biggest and most exciting races of the season. It brings together top runners from many schools to compete in tough events. This year our RCS team proudly showed up ready to compete.

The RCS track team earned runner-up in their division, and everyone gave it their best! The runners pushed hard, and even those who didn't race came along to cheer on their teammates. The team spirit was strong, and it made the day even more special.

Sixth grader Kyla B. ran at Penn Relays for the first time. "It was fun and scary at the same time," Kyla said. Her favorite event was the 100-meter race, where she gave it her all.

With strong performances, great teamwork, and tons of school pride, the RCS track team had an unforgettable season and are ready to rest this summer to compete again in the Fall!

Go Rams!

## What are you most looking forward to this Summer?

*Resurrection Report Staff Writers Interview RCS Students*

"I am most looking forward to free time, reading books, and time to get to know my friends better!" - Tori L., 6<sup>th</sup> Grade

"I excited to tan and hang out with my friends!" -Sophia P., 6<sup>th</sup> Grade

"I'm excited because I will have barely any home work! - Charlie L., 3<sup>rd</sup> Grade

I am excited about our trip to Japan and spending time with my friends! - Stella G., 6<sup>th</sup> grade

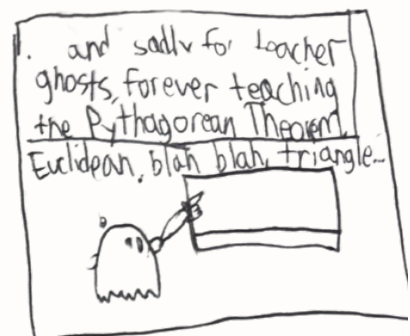

"I am most excited to meet new friends." - Sienna D., 4<sup>th</sup> grade

"Soccer, netflix, and swimming are going to be fun this summer." Serjio K., 6th Grade

### SCHOOL SPIRITS

## RCS's Incoming Principal Brings Exciting Ideas

*By Jay S.*

As the school year wraps up, students at RCS are starting to look ahead—especially with a new principal, Mr. Keely, joining the school. After his recent visit and assembly in the gym, many students are curious about what he'll bring to RCS.

During the assembly, Mr. Keely shared a little about himself and his plans. One thing he mentioned was that he will help keep the school's uniform policy in place. While not everyone loves wearing uniforms, some students say it makes getting ready in the morning easier. Mr. Keely also said he wears a tie every day, showing his professionalism and dedication to setting a good example.

What really excited students, though, were some of the cool things Mr. Keely has helped bring to other schools. He's worked on creating school libraries and adding 3D printers—two ideas that got students talking and dreaming big about the future of RCS.

When asked their thoughts on Mr. Keely's visit and what they hope for next year, students were happy to share:

Owen F. said he didn't know what to expect at first, but he's looking forward to the possibility of a new school library—something he's been hoping for. and excited to see what new ideas Mr. Keely might bring.

Ryan K. was surprised by how professional Mr. Keely seemed and said he seems like a kind person.

Mr. Keely is bringing new energy and exciting ideas to RCS. From new resources like a library and technology tools, to continuing traditions that help the school run smoothly, there's a lot to look forward to as Mr. Keely joins the RCS community.

## 8th Grade Grad (cont.)

We interviewed Sabrina Dain and she shared that the theme is Mardi Gras, and students will also receive awards at the dance to celebrate their accomplishments.

Finally, graduation day is Thursday, June 12th. The day ends with a “clap out” where the other grades cheer them on as they leave school for the last time.

We asked Mrs. Newman how she feels about the dance and graduation. She said she’s excited to see everyone dressed up and to find out who wins awards. Mrs. Newman explained that the students will have two or three days of practice before graduation. She even described the practices as a “dance” because it takes time to get everything just right.

Good luck to the RCS Class of 2025—we are proud of you!

## Editor’s Note

*Nicole Caputo, RCS Parent*

As the 2024-2025 school year winds down, I am incredibly grateful for the school community we have in RCS.

This year was full of changes big and small for our school and the entire community gathered together to support our faculty, administration, and children, to continue to make our school a place we are proud to be a part of.

Thank you to Mrs. Baker and Ms. Cleary for supporting the vision for a school paper amidst all this change! It has been a pleasure to work alongside these talented sixth grade students over the past few months and to publish the inaugural issue of the *Resurrection Report*!

Have a wonderful summer, RCS!
